THE ADMINISTRATIVE MAP OF CAMBODIA - LAOS - VIETNAM DEVELOPMENT TRIANGLE AREA

Dear Bang Proh,

On the contrary, it is very important that these links to the UN meetings are distributed widely to the public, especially for the Khmer community in Cambodia to have access to them, because very few know anything of what the UN are doing for them and for the PPA implementation and **time is running out!**

You can use and post all the links that I have sent to you below, except use caution when navigating this Vietnamese site about the Triangle because it doesn't have the "S" for Security in its HttpPS :: (CLV Triangle Map,

Source: Vietnam

[http://clv-development.org/en/Pages/Introduction\\_of\\_Development\\_Triangle.aspx](http://clv-development.org/en/Pages/Introduction_of_Development_Triangle.aspx) )

Regarding the CLV triangle, some people are even trying to say that it is not true that the triangle is turning the countries of Cambodia and Laos into another Kampuchea Krom, under the guise of economic development.

It is also especially important to let Khmer have hope back, because what we are doing that is getting us so close to getting the UN, the US, the EU, all the signatories, all 193 countries to hear our complaints and our wishes and they are about to get the process in motion to force the government to reform as required by the international human rights treaties, economic rights treaties, UPR pledges and PPA agreements.

In order to have hope back, the people need to understand what we are doing (by "we" I mean all of us, the civil society which includes the people who sponsored the last PPA commemoration).

Even the Lao people can have hope back, even if they have no PPA, because all humans have their rights guaranteed by UDHR and the UN charter.

Also the civil societies can now get together and help write to the different countries and expose the crimes against the people of Cambodia, of Laos and against the indigenous people of Vietnam just like we did with the Myanmar group.

Attached is a short compilation of what Vietnam and Cambodia are signing behind the scenes, and I am sure that they have forced Laos to do the same.

The Laotians can protest under the right to self determination and national sovereignty.too.

The CLV triangle will integrate the 3 countries into a Neo-soviet-socialist -style EU similar to the EAEU or the Eurasian Economic Union , run by Vietnam, friendly towards Russia and China, before 2030, which ultimately will lead to the Indochinese Triangle (equivalent to the Russia-led **Commonwealth of Independent States, (CIS)**) .

**Why would the ministries of information of two countries fight fake news together if they were really independent of each other and equal?** As in the past agreements with Vietnam, it is the Vietnamese “journalists” who can freely travel to Cambodia, not the other way around . Secondly, since there is no free press in Cambodia nor in Vietnam , only government mouth-pieces disguised as journalists, allowing these “Vietnamese journalists” into Cambodia is just another form of government intelligence gathering. **This is transnational repression as allowed under the triangle agreements, with Vietnam targeting the Khmer Krom community who fled persecution in Vietnam and took refuge in Cambodia.**

On page 19 of this Article-19 report, there is government repression, every time a Cambodian talks about borders (other examples not mentioned in this article are Member of Parliament Um Sam An and senator Hong Sok Hour who spent many months in prison for Facebook postings about Vietnam-Cambodia border issues, Dr Kem Ley who was on a “100 nights “ visit along the border and Mr Sam Rainsy who was accused of being a traitor and his party dissolved using drummed-up charges ).

(-Le lien entre le triangle CLV et le traité de Paris, est dû aux dernières plans qui aboutiront ultimement à la violation des articles de l'APP sur la souveraineté du pays ( comme le pour le cas de l'occupation du port de Ream par les chinois )

La réponse revient à la définition du mot « souveraineté » dans le traité de Paris :  
- « souveraineté » est violée si la volonté du peuple n'est pas respectée, quand une autre entité, (comme un Okhna fabuleusement riche , une monopolie, un conglomérat international( Chinois ou Vietnamien) ou domestique ( Ly Yong Phat)) , contrôle la direction économique, juridique militaire ou administrative du pays , au lieu d'un gouvernement élu librement et équitablement conformément au droit à l'autodétermination, décrit dans la déclaration Universelle des droits de l'homme et dans l'article 2 du ICCPR.

Quelqu'un a demandé à un de nos membres si nous avons des preuves que le triangle CLV est plus qu'un traité économique,( et comment un traité économique peut-il entraîner l'équivalent d'un second Kampuchéa Krom).

J'ai découvert que le Vietnam et la Russie ont fait les mêmes plans hégémoniques pour prendre le contrôle de leur région et de leurs voisins :

(Comme le peuple palestinien au Gaza, qui n'ont jamais eu des élections libres, qui n'ont pas eu droit à leur libre choix dans leur destin ( self determination)(1)) .C'est le Vietnam , avec l'aide de la Chine et la Russie qui ont installé Pol Pot, puis Hun Sen ( de meme ils ont installé le Pathet Lao) à coup de canons. Hun Sen n'a pas donné au peuple le droit de décider de leur futur librement, quand il a signé les accords sur le triangle, dont les termes violent la partie des accords garantissant la souveraineté du pays.

**3-Le triangle a les mêmes structures que ce Commonwealth of Independent States, (CIS)** qui est un regroupement d'anciens pays de l'URSS , et l'Eurasian Economic Union dominée par la Russie, qui est l'équivalent de l'Union Européenne (qui est démocratique) et du CLV triangle (non-démocratique et sous la domination Vietnamienne et neo-communiste).

Un résumé sur le Commonwealth of Independent States est inclu dessous.

Ce russophile Commonwealth of Independent States, (CIS),a créé le [CIS Free Trade Area, qui lui même](#) a créé trois autre rassemblements :(2)

**1-[Collective Security Treaty Organization](#): =equivalent à l'OTAN ( Nous ne savons pas s'ils ont incorporé ce traité militaire déjà ou non, mais ils ont signé des accords de coopération avec l' armée et la Navy khmère.**

**2-[Eurasian Economic Union](#) : = équivalent à l'Union Européenne et au triangle de développement CLV**

**3- the [Union State](#): = equivalent à l'ancien USSR ( [union supranationale ou fédération](#)) dirigée qui équivalent à une incorporation/ annexion totale du Cambodge at du Laos dans une nouvelle nation menée par le Vietnam ) .= Fédération indochinoise du CLV**

**Référence :**

**(2)Eight of the nine CIS member states participate in the [CIS Free Trade Area](#). Three organizations originated from the CIS, namely the [Collective Security Treaty Organization](#), the [Eurasian Economic Union](#) (alongside subdivisions, the [Eurasian Customs Union](#) and the [Eurasian Economic Space](#)); and the [Union State](#). **While the first and the second are military and economic alliances, the third ( the Union State) aims to reach a supranational union****

Dear Bang Proh,

For the organizations who will be holding your PPA commemoration this Saturday, I just wanted to bring your attention to the articles that I sent to you before:

I have just noticed that I recopied the area to be emphasized twice in the article below that I previously sent to you. Note that Chin Malin is repeating his government's lie when he said that the PPA are no longer valid, so we ( the civil society) must issue something to counter the Hun regime's narrative every time he utters a lie.

All the multiple times that the Special Rapporteur and the Member states mentioned the PPA in the attached links , are proof to the fact that the PPA is alive and well.

Again, the Khmunity Campaign will soon issue an another alert.

**government had an obligation to abide by the Constitution**, even if the agreements **were no longer valid**.

US ambassador W Patrick Murphy took to social media to congratulate the Kingdom on the anniversary.

“We joined civil society today for the 32nd anniversary of the Paris Peace Agreements, which put Cambodia on a path to peace and stability. Embassy deputy chief of mission Bridgette Walker noted that, as a signatory of the agreements, the US stands with the Cambodian people for an inclusive, multiparty democracy,” he tweeted.

The French embassy noted that 32 years after the signing of the Paris Accords, the people of Cambodia have walked a long path towards economic development.

“France encourages the widening of political and civic spaces, and the strengthening of a pluralist democracy that is respectful of human rights, which are at the core of the agreements,” it said in a tweet.”

Ministry of Justice secretary of state Chin Malin highlighted three key aspects of the agreements which had shaped modern Cambodia.

“First, the four main foundations of leadership were incorporated into our Constitution in 1993. They include the principles of national independence, sovereignty and territorial integrity, constitutional monarchy, liberal democracy and pluralism, and respect for human rights, freedom and the rule of law,” he said.

Secondly, he said, the **government had an obligation to abide by the Constitution**, even if the agreements **were no longer valid**.

“Third, although the agreement failed to bring a total end to the prolonged civil war in Cambodia, it formed a foundation for leading the country in a democratic, modern path,” he added.

US ambassador W Patrick Murphy took to social media to congratulate the Kingdom on the anniversary.

“We joined civil society today for the 32nd anniversary of the Paris Peace Agreements, which put Cambodia on a path to peace and stability.
